Prof. Barnard has made a number of photographs of the Gale comet, showing the double tail, which subsequently disappeared. This tail was seen on the south angle to it. The angle changed, becoming greater in each succeeding photograph, until in the last negative it was nearly at right angles to the main tail. Prof. Barnard intends to measure this angle carefully for a study of its change.

GIRLS! GIRLS! TRY IT!
BEAUTIFY YOUR HAIR!

Make it Thick, Glossy, Wavy, Luxuriant and Remove all Dandruff

Your hair becomes light, wavy, fluffy, abundant, and appears as soft, lustrous and beautiful as a young girl's after a "Danderine hair cleanse." Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dirt, dust, and excessive oil, and in just a few moments you have doubled the beauty of your hair. Besides beautifying the hair at once, Danderine dissolves every particle of dandruff, cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair.

But what will please you most will be after a few weeks' use when you will actually see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair and lots of it surely get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter and just try it. (adv)

SECURED DIVORCE

But Wife With Whom Fox Lived Was In Ignorance.

That P. A. Fox, of Louisville, secured a divorce from his wife without her knowledge and then continued to live with her several years was the allegation made a few days ago by the former wife in a suit to deprive him of any claim to her property.

She left him as soon as she learned of the divorce. The only reason given for Fox getting the divorce is that he wanted to "have it handy," though he did not intend to leave his wife.

Queer Fable About Cotton.

When cotton first came to Europe to make its principal center in Lancashire it was the subject of the quaint and wonderful fable of the "Vegetable Lamb." The fluffy white fibers of the bursting cotton pod so resembled sheep's wool that travelers reported that in Tartary there grew a shrub the fruit or boll of which contained "within a little Beastie in Fleschie, in Bone and Bloodie, as though it were a little Lambie with outer wool." After the lamb had been eaten the wool was made into cloth, continued this story, which is the earliest European account of the manufacture of cotton.

Abolition of War.

On one occasion Mr. Mason came into Mr. Sumner's office and found him engaged in writing an address to be delivered before a peace society. After a little good-natured banter on the part of Mr. Mason and an equally good-natured defense of his views by Mr. Sumner, the former, rising to take his leave, said: "Well, Sumner, you may be right, but I should just as soon think of joining a society for the suppression of thunder and lightning as a society for the suppression of war." From Memoir of Jeremiah Mason, by G. S. Hillard.

Hookworm Disease.

The hookworm disease is so named from a small parasite which fastens itself in the intestines and preys upon the system. The name hookworm relates to the peculiar structure of the parasite (which has been named Necator Americanus) and the disease is attributed to low nutrition and unsanitary conditions.
